NOTE: Butter lettuces perform best in milder growing conditions - Best to avoid in high summer
ALL varieties offered performed above 8.5 in taste trials!

Days to Maturity: Add 5-10 days in early Spring - Subtract 3-5 days in Early Summer

Disease Resilience Guide: Bottom Rot or Rhizoctonia (BR); Downy Mildew (DM); White Mold or Sclerotinia (WM); Tip Burn (TB); Lettuce Mosaic Virus (LMV)
